Minutes 11-22-23

Urja

Not present.

Tasks

- Work with Chintan on a demo for next week (4 weeks plan deadline).

Jay

Not present.

Tasks

- Demo camera feature progress next week.

Chintan

Updates

- Still working on the script.
- Became familiar with the Global Roads & Traffic asset.

Feedback

- If downloading prefabs, use HDRP, not URP.
- As mentioned before, it's ok to use URP prefabs from the karting project for a demo.

Tasks

- Demo traffic-grid generating script next week (4 weeks plan deadline).

Leo

Updates

- The project will transition into the high-definition rendering pipeline (HDRP). We will move onto a new project and archive the karting template.
- The networking part is done (testing pending).
- Working on the physics aspects of the new project.
- Working on bringing a car prefab to the new project.

Feedback

Tasks

- Develop the car/physics baseline for the new HDRP project.
